IMPORTANT: Information, specifications, procedures and recommendations provided (“information”) are based on our experience and we believe this to be accurate. No representation, guarantee or warranty is made as to the accuracy or completeness of the information or that use of the product will avoid losses or damages or give desired results. It is purchaser’s sole responsibility to test and determine the suitability of any product for the intended use. Tests should be repeated if materials or conditions change in any way. No employee, distributor or agent has any right to change these facts and offer a guarantee of performance.

NOTE TO USER: by ordering/receiving product you accept the H.B. Fuller General Terms and Conditions of Sale applicable in the region. Please request a copy if you have not received these. These Terms and Conditions contain disclaimers of implied warranties (including but not limited to disclaiming warranties of fitness for a particular purpose) and limits of liability. All other terms are rejected. In any event, the total aggregate liability of H.B. Fuller for any claim or series of related claims however arising, in contract, tort (including negligence), breach of statutory duty, misrepresentation, strict liability or otherwise, is limited to replacement of affected products or refund of the purchase price for affected products. H.B. Fuller shall not be liable for loss of profit, loss of margin, loss of contract, loss of business, loss of goodwill or any indirect or consequential losses arising out of or in connection with product supply.

Nothing in any term shall operate to exclude or limit H.B. Fuller’s liability for fraud, gross negligence or for death or personal injury caused by negligence or for breach of any mandatory implied terms.

### STURDIBOND HEAVY DUTY CONSTRUCTION ADHESIVE

**Description**

Sturdibond™ Heavy Duty Construction Adhesive is a synthetic rubber-based adhesive designed primarily for installation of flooring and wall panels. Sturdibond is designed to bond damp, poorly seasoned timber and treated timbers.

Sturdibond is easy to apply, even in cold conditions where conventional construction adhesives harden and cannot be applied easily.

**Benefits**

- Bonds damp, poorly seasoned or treated timber.
- Guns out easy and sticks in cold weather.
- Sag resistant – Can be used on vertical surfaces.
- Reduces squeaking associated with nail ride in floors.
- Repositionable for up to 20 minutes.
- Reduces the number of mechanical fasteners required to install floors or walls.
- Water resistant – Will not break down in contact with water (EG: Rain).
- Natural wood colour.

**Uses**

- Bonding particleboard, plywood, fibre cement and strip flooring to joists.
- Bonding fibre cement sheet, plasterboard and wall paneling to wooden and metal studs.
- Bonds skirting boards, architraves and trims to walls.
- Replacing loose tiles on walls (not recommended for floor tiles).

Our Focus is Clear. Perfecting Adhesives.
**TECHNICAL DATA SHEET**

### Coverage

330g cartridge will give 15 lineal meters of a 5mm bead, or 2 sheets of 1.2 x 2.4 meter panel.

375ml cartridge will give 19 lineal meters of a 5mm bead.

### Limitations

- Do not use Sturdibond where temperatures will exceed 80°C.
- Sturdibond is not suitable for immersion.
- Sturdibond can be used for external applications, but must not be exposed to prolonged direct sunlight.
- Do not use Sturdibond on polystyrene.
- Do not use Sturdibond on mirrors.

### Surface Preparation

Only apply to surfaces that are clean, dry, sound and free of dust oil or contamination. Clean metal with mineral turps* or white spirits*. Adhesion to metals can be further improved by light sanding.

### Application

Cut tip off cartridge, screw on nozzle and load into cartridge gun. Cut nozzle tip to a 5mm diameter hole (or desired size). Squeeze trigger and apply.

### Floors

Fit sheet to joist within 15 minutes. Stagger end-joins leaving 1.5mm gaps between them to allow for expansion.

### Walls

Fit panel to stud within 15 minutes and press firmly into position. To speed up the bonding, tilt panel back for a few minutes to allow solvent to escape. Refit panel making sure glue line matches up. Press firmly together. Nail or screw panels as for floors per manufacturers instructions. If not nailing or screwing, brace panel for at least 24 hours, until set.

When bonding a sheet or panel to a large, flat surface, apply full length 5mm diameter beads every 30-40cm. Press into position and brace until set.

### Bonding

All overlay flooring must be fully bonded, that is a full trowel out of Adhesive over entire area. Spot gluing or bead application is not recommended.

### Cure Time

Time to cure Sturdibond will depend on temperature, porosity of the substrates and ventilation. Full cure may take up to 7 days.

### Service Temperature

Sturdibond will maintain a bond in situations where the temperature is continually between 0°C and 40°C. Sturdibond will withstand temperatures up to 80°C where there is a light

Our Focus is Clear. Perfecting Adhesives.

Painting

Sturdibond may be painted once it is fully cured.

Safety Information

Sturdibond is classified as hazardous according to criteria of Worksafe Australia. Sturdibond is highly flammable. Keep away from sources of ignition. Do not inhale vapour. Ensure good ventilation in area of use. Sturdibond is a Dangerous Goods Class 3.

A Material Safety Data Sheet is available from the H.B. Fuller representative your state, HB Fuller Australia customer service, or downloadable from the HB Fuller web site, www.hbfuller.com.au

Disclaimer

This technical data sheet summarises at the date of issue to the best technical knowledge of HB Fuller Australia. Since HB Fuller Australia cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this technical data sheet in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company. Our responsibility for the products sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available on request.

Shelf Life

Use product prior to the best before date printed on the bottom of the cartridge.
